Hook-and-loop holder KBH

RoHS compliant · Made in Germany

icotek®
smart cable management

Systems for cable management

Organize, bundle, fix: Hook-and-loop fasteners and holders

for a wide variety of systems.

NEW

Holders for hook-and-loop for

item, Rittal, Bosch Rexroth, MiniTec and many more

The new fasteners KBH-S and KBH-R serve as a universal holder and as a cable routing system for the fastener KLB and the hook-and-loop tape cable tie KLKB. Due to the two-part nature of the hook-and-loop holder, the upper part can be clipped on in four different directions, thus offering a high level of flexibility. Thanks to the 90° twist lock, a very simple and safe profile assembly is guaranteed.

- Available in three sizes: 12 mm, 24 mm, 36 mm (max. cable diameter)
- Very fast assembly: screwable (KBH-S) or pluggable (KBH-R)
- Four different guiding directions of the cable plate possible (KBH-R)
- Subsequent removal or addition of cables is easily possible
- Can be combined with slot nut for punched rails of numerous manufacturers (Bosch Rexroth, Rittal, item, Minitec)
- Complementary icotek products: Hook-and-loop fastener KLB and holder for hook-and-loop fastener KLKB
- KBH-S: screwable M5
- KBH-R: pluggable, fits to Rittal System-Chassis and mounting rail
pluggable, fits to Item, Bosch Rexroth, MiniTec

A safe combination:

Hook-and-loop fasteners and holders

When it comes to bundling and fixing cables and wires, hook-and-loop fasteners are an excellent alternative to cable ties. Conventional cable ties can only be used once and readjustment is no longer possible. On the other hand, hook-and-loop fasteners can be closed and opened hundreds of times. They are gentle on the cable, especially when there are vibrations and are therefore the ideal complement to the new holders for hook-and-loop fasteners.

Hook-and-loop fasteners reduce the risk of injury compared to conventional cable ties

Hook-and-loop fasteners

Cable plate available in three sizes: 12 mm, 24 mm, 36 mm

Clamping bracket

Recess socle mounting for twist lock or screw assembly

Can be combined with slot nut (Bosch Rexroth, Rittal, Item, Minitec) for screwing

Socle with integrated slot nut (available for different profiles: Bosch, Rittal, Item, Minitec)

Specifications

Material	Polyamid (PA)
Flame class	UL94-V0, self-extinguishing
Temperature	-40°C to +120°C (static)
Properties	halogen free, silicone free

Sketcch KBH-R on Rittal system
